

Do membership numbers mean anything? Are we healthy when a Chapter has 200 members and only have 10 participate.?

Are National Projects important? If so, why do we have so many individual efforts which don't support the National efforts?

We have auxiliary organizations, yet we act and treat them as foreign and are responded to in kind.

I for one am a proponent of "WE," and we have an enormous burden and responsibility. Much of what we do, are good deeds and are commendable, but our basis is the ideals of our ancestors. If we look at much of the horror and break down of our and many societies of the world it has much to do with individual freedom and democracy. Our leadership says we are the voice of Hellenism in America. Are we? Do we practice what we preach? (One man one vote).

I would hope that through our action that we the leaders and delegates of our Chapters, as representatives of the AHEPA, would work toward unity and solidarity to make us one strong and healthy bearer of Hellenism to the world.

Respectfully Submitted

Fraternally,
